

Interventional Radiology (IR) Lumbar Puncture Patient Instructions - Adult

WEEKS or DAYS before your appointment:

- **Preparation:** You must follow ALL INSTRUCTIONS in this letter. Your doctor has been notified of your appointment.

Ask your doctor right away about **BLOODWORK** you may need before your appointment, or **MEDICATIONS** you may need to change. **If not complete, you will be rebooked.**

- **Arrange transportation:** You must have an adult give you a ride to and from your appointment. They are welcome to stay for additional support.
- **Take your weight:** Contact Diagnostic Imaging at the number provided above if your weight is over 400lbs.
- **Bring lunch:** You may bring a bagged lunch to eat after your appointment. Do not eat until advised by Diagnostic Imaging staff.
- **Arrange childcare:** For safety reasons, children cannot accompany you in procedure rooms and cannot be left unattended.
- **Know if you're pregnant:** If you're pregnant, consult with your doctor before proceeding with your appointment.
- **Consult your diabetes care provider:** If you're taking diabetes medications or using Insulin Pump Therapy, consult your diabetes care provider before your appointment. www.ipumpit.ca

HOURS before your appointment:

- Continue to take prescribed medication, as directed by your doctor.
- You may continue to eat and drink normally, unless otherwise directed by your doctor.

BRING to your appointment:

- Current list of medications (prescription and over the counter).
- Any medication you may need during your appointment.
- Healthcare card.
- Picture identification.
- Eyeglasses, hearing aid(s), and mobility aid/device.
- Patients with diabetes - insulin and glucometer
- Green sleeve that includes your Goals of Care (GOC) Designation Order form if you have one.

DO NOT bring:

- Leave valuables at home, including jewelry or piercings.
- Limit the number of items you bring to your appointment.

AT your appointment:

- **Consent is required:** A legal representative (parent or alternate decision maker) must be available (in person or by telephone) to provide consent for all patients under the age of 18, or any patients that do not have the capacity to make health care decisions.
- You will be provided with a hospital gown to change into.
- You will have an intravenous (IV) line placed in your arm.
- You will need to lie either face-down or on your side.
- The procedure may require the use of contrast. Contrast will make parts of your body more visible in images.
- Your appointment will take up to 4 hours.
