

After sexual assault

Resources close to you – Edmonton and area

Edmonton and area

Hospitals

Alberta Health Services (AHS) hospitals and urgent care centres provide confidential and compassionate medical care following sexual assault. All sites can provide medical treatment and consult with specialized sexual assault teams any time, day or night.

Medical care may include treatment or prevention of sexually transmitted infections (STIs), pregnancy prevention, follow-up testing, and referrals to additional health services.

Sexual assault response team (SART)

The sexual assault response team (SART) are specially trained nurses who provide sexual assault examination and care for individuals 14 years and older. SART is available in all 11 emergency departments in the Edmonton area.

Outside of emergency departments, the SART clinic is available for people who do not need additional medical, mental health, or social support. The clinic is by appointment only and provides the same specialized sexual assault care in a non-hospital setting.

To speak directly with a SART nurse to discuss your options for care, call **1-833-358-0888**. The line is available every day from 7:30 a.m. to 11:00 p.m. The team provides care to individuals who have been sexually assaulted in the last 7 days, with or without police involvement.

Care includes:

- medical and forensic examinations
- testing and preventive medication for sexually transmitted infections (STIs) or pregnancy
- referrals for counselling or other healthcare services

For more information, visit primarycarealberta.ca/SART.
