

Release: Referral Data

April 26, 2025

Referral data for all specialties using the eReferral system will be made available to patients in MyHealth Records via My Personal Records starting April 26, 2025. It includes status information as the referral progresses from initial request to completed, after the appointment with the specialist has occurred.

Referral Status Includes:

- submitted
- received
- in-progress
- waiting for appointment
- complete
- canceled

Consult Request Only

Consult request (no advice, and no historical information) will be available.

All Specialties

All referrals entered in the eReferral system on April 26, 2025 or later will be made available without delay in My Personal Records. Specialty/sub-specialty will display in MyHealth Records in the 'Reason for Referral' field.
